Transform Your Workplace with 5S and Visual Management

Everything in It's Place. Every Time.

Time spent searching for tools, equipment and consumables is time that adds no value to your business. In lean manufacturing, this is recognised as waste - reducing productivity, creating delays and increasing frustration.

Our visual management solutions are built around the principles of 5S, helping you create organised, efficient and safer workplaces where every item has a clearly defined place.

See it. Find it. Use it. Return it.

YOUR NUMBERS

Calculate Your Cost

Enter your team's details to see what disorganisation is costing you annually.

Your Workplace

Number of staff affected

10

Workers who search for tools as part of their role

Average hourly rate

£18

UK manufacturing average ~£18/hr including on-costs

Minutes lost per day per person

9 min

Research finds ~9 min/day on average in industrial environments

Working days per year

230

Typical UK full-time working year

Your Annual Cost

Hours lost per person, per year

34.5 hrs

Total team hours lost

345 hrs

Cost per person

£621

TOTAL ANNUAL COST TO YOUR BUSINESS

£6,210

in lost productivity

A set of ToolBoards costs a fraction of this – and pays for itself in weeks, not years.
